

Aswan is a peaceful city with a unique natural structure, the icon of the middle east, characterized by its warm climate, rare plant islands, and natural reserves, also there are rock Nile islands and granite mountains around the city extending from the high dam to the north of Edfu.

“Aswan, smooth and direct connection with nature”

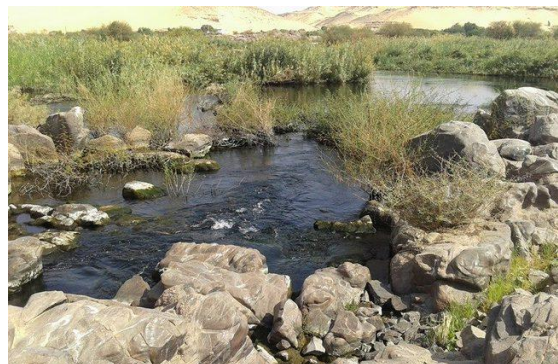

(1) Natural Reserves: Magical spot for safari activities that will get you through one of a kind life experience

- Wadi Elallaqi

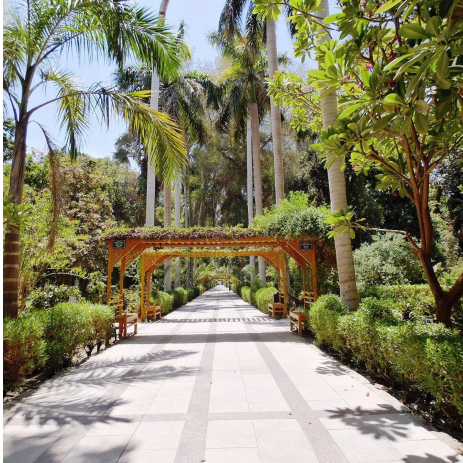

- **Saloga & Ghazal:** In the heart of the Nile with a variety of animals such as camels, African wild ass, goats, red foxes, hyenas, and more. Both endangered resident and immigrant birds also exist on the islands, including black-headed ibis, Eurasian hoopoe, Bulbul, and others, in addition to the availability of many types of plants that only grow on Nile islands

(2) Kitchener Island: Exceptional park with more than 1000 different types of rare plants from around the world

(3) Immigrant Bird Watching: Every year between November and March over 94 different bird species pass their way through Aswan to Africa.

(4): Sand and Mud Bath at Barbar Island: with its sandy sunny beach, Barbar Island is one of the most recommended healing spots in Egypt for chronic diseases like Rheumatoid.
